Lakhnadon (Seoni), Madhya Pradesh - 480886, India

OBJECTIVE

Web Developer with 2 years of experience specializing in front-end development. Proficient in HTML, CSS, Bootstrap, and JavaScript, with a strong background in building and maintaining responsive websites. Additionally, have hands-on experience with .NET MVC, including implementing basic CRUD operations. Passionate about creating intuitive and visually appealing user interfaces.

EXPERIENCE

• Cylsys Software Solutions Pvt Ltd

Software Development Engineer

Apr 2023 - Present

Gadarwara, India

- Developed and maintained front-end components for various web applications.
- Optimized website performance and ensured cross-browser compatibility.
- Collaborated with designers and backend developers to create seamless user experiences.
- Implemented responsive designs using Bootstrap and CSS frameworks.

PROJECTS

• Employee Management System

Technologies: .NET MVC, MySQL Workbench, HTML, CSS, Bootstrap, JavaScript, Visual Studio

- **Description:** A web-based system developed using .NET MVC to manage employee records, user authentication, and role-based access. The system provides an intuitive dashboard to handle employee data efficiently.
- **Key Features Contributions:**
 - * Implemented CRUD (Create, Read, Update, Delete) operations for employee management.
 - * Developed registration login system with proper authentication and role-based access (Admin/User).
 - * Created a dashboard to display employees with an option to edit and delete records.
 - * Integrated form validation using JavaScript to ensure data accuracy.
- **Roles Responsibilities:**
 - * Developed frontend and backend using .NET MVC.
 - * Designed a responsive UI for better user experience.
 - * Integrated form validation using JavaScript to ensure data accuracy.

• It - Assets

Technologies: Html, Css, Bootstrap and JavaScript, Git, VS Code

- **Description:** Its systematically manages and tracks all IT assets throughout their lifecycle, including hardware, software, and data.
- **Roles Responsibilities:**
 - * Developed designed responsive UI using HTML, CSS, and Bootstrap to ensure a smooth user experience.
 - * Worked on improving user experience (UX/UI) with clean design smooth navigation.
 - * Collaborated with the team to enhance features and troubleshoot issues.

• Social Post

Technologies: Html, Css, Bootstrap and JavaScript, Git, VS Code

- **Description:** A social media management tool designed to help users schedule, manage, and track posts across multiple social media platforms. It allows businesses and individuals to efficiently plan and automate their social media activities.
- **Roles Responsibilities:**
 - * Implemented a dashboard for users to manage multiple social media accounts from a single platform.
 - * Developed designed responsive UI using HTML, CSS, and Bootstrap to ensure a smooth user experience.
 - * Worked on improving user experience (UX/UI) with clean design smooth navigation.
 - * Collaborated with the team to enhance features and troubleshoot issues.

• Tracking Automation System

Technologies: Html , Css , Bootstrap and JavaScript , Git , VS Code

- **Description:** This project automates the Document Tracking Process, eliminating manual interventions and improving Turnaround Time (TAT) for better process efficiency. It replaces the traditional Excel-based tracking system with an automated, centralized platform, ensuring accuracy, reducing errors, and streamlining document management.
- **Roles Responsibilities:**
 - * Developed an automated document tracking system to minimize manual efforts.
 - * Developed designed responsive UI using HTML, CSS, and Bootstrap to ensure a smooth user experience.
 - * Worked on improving user experience (UX/UI) with clean design smooth navigation.
 - * Collaborated with the team to enhance features and troubleshoot issues.

• Cylsys CRM

Technologies: Html , Css , Bootstrap and JavaScript , Git , VS Code

- **Description:** In this project, I have created a report. Displays the data without any subtotals in the report. Use this type of report to create contact mailing lists, a consolidated view of the sales pipeline, and others.
- **Roles Responsibilities:**
 - * Designed reports for use cases such as contact mailing lists and consolidated sales pipeline views..
 - * Developed designed responsive UI using HTML, CSS, and Bootstrap to ensure a smooth user experience.
 - * Worked on improving user experience (UX/UI) with clean design smooth navigation.
 - * Collaborated with the team to enhance features and troubleshoot issues.

• Peacebook

Technologies: Figma , Html , Css , Bootstrap and JavaScript , Git , VS Code

- **Description:** Developed a web application where peacekeepers can edit their profiles, register delegates through QR codes, and send invitations.
- **Roles Responsibilities:**
 - * Designed user interfaces in Figma, ensuring alignment with project goals and user expectations.
 - * Peacekeepers can edit their profiles, register delegates via QR codes, and invite others.
 - * Developed designed responsive UI using HTML, CSS, and Bootstrap to ensure a smooth user experience.
 - * Worked on improving user experience (UX/UI) with clean design smooth navigation.
 - * Collaborated with the team to enhance features and troubleshoot issues.

SKILLS

- **Technologies:** Html , CSS , Bootstrap , JavaScript , MVC DotNet , MySQL Workbench , Github , Git Desktop , Figma

EDUCATION

• B-Tech (Computer Science)
